## EDUCATION

NM Institute of Engineering and Technology

Bachelor of Computer Science and Engineering - **CGPA - 8.02**

09/2020 – 06/2024

Bhubaneswar, India

## Technical Skills and Interests

**Languages:** Java, C, C++ (Basic)

**Developer Tools :** Eclipse, Spring tool Suite (STS), Git/GitHub, VS Code, IntelliJ idea.

**Frameworks:** Hibernate, Spring Framework, Spring MVC, Spring Boot, Rest apis.

**Relevant Coursework::** Data Structures Algorithms, Object Oriented Programming Concepts, Operating Systems, Database Management System .

**Debugging skills :** Breakpoint Technique.

**Databases:** PostgreSQL, MySQL, SQL++.

**J2EE skill set:** JDBC, Servlets, JSP.

**Front end:** HTML5, CSS3, JavaScript, React Js (Basic) .

## INDUSTRIAL TRAINING

Palle Technology, Bengaluru 

05/2024 – 08/2024

**Student Management System** 

Bengaluru, Karnataka

- Developed a web-based application to manage student information, including enrollment, grades, attendance, and course assignments. The system supports CRUD operations for student records, enables easy tracking of academic progress, and allows administrators to generate reports.
- Technology Used: Java, Spring Boot, Postman API, React Js, MySQL database.

## PROJECTS

**Employee Management System**  | Java, Spring Boot, React JS, MySQL, Postman API

01/2025

- \* Designed and developed a comprehensive software solution to manage employee-related processes, including personal details, roles, attendance, performance, payroll, and leave tracking.
- \* Implemented role-based access control for secure operations, real-time analytics, and reporting features to improve decision-making.
- \* Automated HR tasks, enhancing productivity and ensuring compliance with organizational standards.

**Banking Management System**  | Java, Hibernate, PostgreSQL

11/2024-12/2024

- \* Developed a comprehensive banking management application to streamline account operations and improve customer experience.
- \* Features included secure account management, real-time fund transfers, and automated transaction tracking.
- \* Implemented financial reporting tools for insights into banking performance. time fund transfers, and automated transaction tracking.
- \* Utilized Java, Hibernate ORM for database interaction, and PostgreSQL for efficient data storage.
- \* Delivered a user-friendly interface ensuring robust functionality and optimized banking processes.

**To-Do List**  | HTML5, CSS3, JavaScript, Bootstrap

09/2023-10/2023

- \* Developed a dynamic web-based To-Do List application that allows users to create, edit, mark as complete, and delete tasks.
- \* Implemented user authentication to provide personalized task management for each user.
- \* Enhanced user experience with features like due date reminders, task categorization, and search functionality.
- \* Ensured responsiveness and cross-browser compatibility for seamless usability on desktop and mobile devices.
